EDUCATION

JSS Academy of Technical Education, Bangalore
Bachelor of Engineering, Computer Science Engineering (AI & ML)

December 2022 - 2026
CGPA(9.25) till 4th semester

Carmel High School, Patna
XII th (ISC)

May 2020 - June 2022
84.5%

Carmel High School, Patna
X th (ICSE)

March 2008 - May 2020
90.2%

PROJECTS

- **PG- Life:** This is a full-stack project based on HTML, CSS, JavaScript, PHP, and SQL, designed to showcase the available PGs in various locations.
- **AI Image Generation:** Using the MERN stack and OpenAI API, this project generates creative and unique images.
- **Car Parking Detection:** This project harnesses computer vision to build a Car Parking Detection system for efficient parking space management.
- **Gender and Age Detection:** Leveraging DNN-based deep learning and computer vision techniques, a model for age and gender detection was developed.
- **Stock Prediction:** Harnessing machine learning to forecast stock prices by integrating historical data, market trends, and technical indicators for informed investment decisions.
- **Linear Regression Prediction Model:** Engineered a powerful machine learning algorithm to analyse variables and predict outcomes, driving impactful decisions.
- **Titanic Classification:** Utilising machine learning to predict passenger survival based on various features such as age, gender, and ticket class, contributing insights into historical events.
- **Health Analysis:** Uses advanced NLP and machine learning to analyse health-related tweets, detecting trends and sentiments to inform public health initiatives and disease surveillance.

TECHNICAL SKILLS

- **Tools:** Web Development, C , Java, HTML, CSS, JavaScript, Generative AI, Deep Learning, AI, DBMS, Data Analysis, React, MySQL, PHP, Python, C++, Graphic designing, Adobe Illustrator, UI/UX.
- **Knowledge:** Object Oriented Programming, Data Structures, Competitive Coding, Problem-solving, Machine Learning, Artificial Intelligence, Generative AI, Cybersecurity.

INTERNSHIPS

AI Intern, Infosys Springboard, (November - Ongoing)

Data science, CodeAlpha (April - March 2024)

Graphic Designer, DTS (July - September 2023)

TRAINING AND CERTIFICATIONS

- Generative AI (July 2023): Microsoft
- Cybersecurity (November - December 2023): Google
- Web Development (July 2023): Internshala
- Data Science (November 2023): IBM
- Deep Learning (July 2024): Infosys Springboard
- AI & ML (October 2023): AWS
- Software Development and Project Management (October 2024): Microsoft

EXTRACURRICULAR ACTIVITIES

- Part of Infosys Springboard Pragati: Path to the Future, Cohort 2.
- Currently working as a graphic designer in our college's design team (Art House).
- Member of the National Service Scheme (NSS).
- Served as the Art Minister of my school for four consecutive years and have won numerous awards.
